SUMMARY

Hello Everyone, I am Elghoula Ahmed A dedicated Full Stack Developer from Tunisia. With a dynamic, creative, and autonomous approach, I thrive in collaborative environments, valuing teamwork as a cornerstone of successful projects.

EXPERIENCE

Cleverttech

Front-End Developer, Part Time

August 2024 - Present

France , Remote

Assisted the development team in building a robust platform by implementing, testing, and optimizing website functionalities. Responsibilities included creating new interfaces, diagnosing and resolving bugs, ensuring smooth and efficient performance. Leveraged Next.js, TypeScript, TanStack, Zustand, and WebSocket for seamless, real-time features, while managing version control with Git and integrating RESTful APIs.

Cleverttech

Full-stack Developer, Internship

june 2024 - July 2024

France , Remote

Supported the development team as a Full-Stack Developer, contributing to the creation and optimization of a dynamic platform. Responsibilities included developing and testing website features, diagnosing and resolving bugs, and enhancing overall functionality. Gained proficiency in frameworks and tools including Next.js, Django, TanStack, PostgreSQL, Git, and RESTful APIs.

Caustaza Group LTD

Front-End Developer, Part Time

August 2023 - March 2024

United Kingdom , Remote

I was responsible for assisting the development team in realizing a marketing influence platform as a full stack developer. This included building and testing website functionalities, fixing bugs. During my internship, I developed strong skills in web development Framework such as ReactJS, Django and also other skills like Redux, web Socket, MySQL, Git and RESTful APIs.

Caustaza Group LTD

May 2023 - August 2023

United Kingdom , Remote

I was responsible for assisting the development team in realizing a marketing influence platform as a full stack developer. This included building and testing website functionalities, fixing bugs. During my internship, I developed strong skills in web development Framework such as ReactJS, Django and also other skills like Redux, web Socket, MySQL, Git and RESTful APIs.

Cleverttech

Full-stack, Internship

February 2022 - June 2022

France, Remote

I was responsible for assisting the development team in realizing a marketing influence platform as a full stack developer. This included building and testing website functionalities, fixing bugs. During my internship, I developed strong skills in web development Framework such as ReactJS, Django and also other skills like Redux, web Socket, MySQL, Git and RESTful APIs.

PROJECTS

E commerce Website

ISSATso

2023

git.io/xxxx

- Developed an e-commerce website using React, MongoDB, and Elasticsearch to deliver a responsive, user-friendly shopping experience with powerful semantic search capabilities. Implemented Elasticsearch for efficient and relevant product search, enhancing discoverability and user engagement and online Payment. (ReactJS, MongoDB, Elasticsearch and Stripe)

IssatSo University

Full-Stack Web Application

2023

git.io/xxxx

- Built a full-stack university project platform using React, Node.js, MongoDB, and Redux. Designed a responsive interface with efficient state management for seamless user experience, enabling students to connect, manage projects, and share resources. (ReactJS, MongoDB and Redux)

Doctor Appointment booking

Desktop Application

2023

git.io/xxxx

- Built a Desktop platform appointment booking application for doctors using JAVA FX,Sql. Designed a responsive interface with efficient state management for seamless user experience, enabling patients to make appointments. (JAVA FX, Sql,RMI)

Other Projects

- Event Platform [↗](#)
- 3D T-shirt Customizations [↗](#)
- Spam-email-detection [↗](#)

EDUCATION

Higher Institute of Applied Science and Technology of Sousse(ISSATSo) Software Engineering Degree	2022- Present
Higher Institute of Applied Science and Technology of Sousse(ISSATSo) Unified degree in Computer Science	2019- 2021
Eljem High School,Mahdia Experimental Science Baccalaureate Diploma	2019

SKILLS

- Operating Systems:** Windows, Linux(ubuntu, debian, kali)
Programming Languages: C, Java, Python ,PHP ,Javascript ,TypeScript
Web Technologies: HTML, CSS, SCSS, React.js, Next.js, Node.js, Django
DataBases: Oracle (PL/SQL), MySQL, PostgreSQL, MongoDB, Elasticsearch
ML/AI: Pytorch, Numpy, Pandas, Matplotlib
Others: Git/Github , Figma
DevOps: Docker
Languages:
- Arabic(Native proficiency)
 - English(Suitable)
 - French(Suitable)
 - Spanish(Beginner)
